REASON FOR TODAY'S CALL:

"Out of the blue, my garburator no longer works. It will not come on when I flip the switch for it. It's a garburator which I purchased from you which you installed maybe in 2010. The kitchen sink drains a little more slowly but I don't want to use Draino to try to clear the clog! I would rather have you guys come in. Thanks!"

DESCRIPTION OF WORK PERFORMED:

The garburator is in great shape, it was not getting power. I removed the garburator switch and found that it was faulty. The homeowner will replace the switch.
