REASON FOR TODAY'S CALL:

1 - connect ikea sink drain to in wall 2 inch copper drain. The vanity leaves only 4 inches from the wall to the vanity drawer. I will upload a picture taken of the situation from the drawer and one from the floor. 2 - connect water line to refrigerator. Line is in wall with a box and valve already installed. 3 - connect a hot water dispenser under kitchen sink. Hole is already in countertop, presently used for dish soap. Electrical outlet is already there as well.

DESCRIPTION OF WORK PERFORMED:

The hot water dispenser could not be installed because the hole in the counter is too small, we will have to come back once the hole is cut out larger. The fridge could not be installed because there was no neoprene ferrel with the supply, this will have to be done when we return to install the hot water dispenser. I connected the ikea sink using 1.25" ABS fittings. The bow adaptor used to attach to the ikea drain pipe was the closest diameter to the drain pipe that could be found, it is tested and not leaking. The home owner was made aware of this connection.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Pipe Lavatory Drainage	\$169.00	\$169.00
			SUBTOTAL:	\$169.00
			GST (5%):	\$8.45
			TOTAL:	\$177.45
