**REASON FOR TODAY'S CALL:**

leak under kitchen sink. believed to be coming from kitchen faucet spray hose.

**DESCRIPTION OF WORK PERFORMED:**

When Irazu initially called to report the leakage I had her tighten the connection between the kitchen faucet spray head and spray hose, Irazu tightened the connection which stopped the initial leak. When I arrived on site there was no sign of water leaking, I tested the kitchen sink and faucet by filling and draining both sides of the sink, no sign of water leakage.

**TECHNICIAN RECOMMENDATIONS:**

I suggested going to Splashes and buying a little battery powered water sensor to leave under the sink that will give an audible signal if it senses water.
