REASON FOR TODAY'S CALL:
 replace lavatory faucet.

DESCRIPTION OF WORK PERFORMED:
 JAN15---The sink has deteriorated around where the faucet fits through and secures. I cannot remove the old faucet without damaging the sink to the point of making it unusable. The faucet aerator was spraying erratically, I believe that this water would sometimes collect on the top of the sink around the faucet and leak through to the bottom, I replaced the aerator and supply lines and tested by filling and draining the sink multiple times. No leak present. I will get pricing for a new sink and faucet. JAN23---Supplied and installed new sink, mechanical drain, and faucet.

TECHNICIAN RECOMMENDATIONS:
 Sink dimensions 17" deep, 21" wide
