REASON FOR TODAY'S CALL:
Clogged garbage disposal drain

DESCRIPTION OF WORK PERFORMED:

- I unjammed the garburator, I did not notice anything out of the ordinary in the grinding chamber, it just seemed to have a buildup of rust. Tested by filling the sink and draining while running the garburator. If the garburator is not regularly used rust will slowly build up and eventually seize it up, I suggest running the garburator once or twice a week to help prevent this from happening again.

TECHNICIAN RECOMMENDATIONS:

The kitchen faucet spray head has a crack I it allowing water to seep out during use. If you contact Grohe customer care they may send out a replacement head under warranty.
