**REASON FOR TODAY'S CALL:**

"The toilet in the master bedroom is leaking from the bottom. We suspect the seal at the bottom of the toilet has been worn down, but we'd like you to come in, look at it, and if possible fix it (as well as look at the secondary toilet). Thanks!"

**DESCRIPTION OF WORK PERFORMED:**

---Master Ensuite: I tested the toilet by flushing multiple times with no signs of leaking. I believe the moisture occasionally found on the floor is urine. I did notice the FillValve was struggling to fill after each flush, I replaced the FillValve and supply line. ---Guest: The FillValve in this toilet was also slow to fill after each flush, I replaced the FillValve and supply line.
