REASON FOR TODAY'S CALL:  
 Kitchen sink faucet is loose and needs to be tightened.

DESCRIPTION OF WORK PERFORMED:  
 ---April15: Re-secured kitchen faucet to countertop. Adam mentioned while onsite that the kitchen faucet had very low cold water pressure, I removed the water filtration system and it is now at full pressure. During testing I noticed the garburator was leaking right through the unit. ---April16: Installed new Waste King garburator. Tested by filling and draining the sink while running the garburator.
