REASON FOR TODAY'S CALL:

-shower head broken. -shower leaking through to where toilet is located. -removed drain off of sink and can't get it back on. -bottom drawer of dishwasher not draining. *concierge will grant access

DESCRIPTION OF WORK PERFORMED:

-I replaced the shower head in the master bathroom. -I added silicone to the corner of the glass separating the master shower from the toilet area. -I re-attached the lavatory drain stopper. I'm not sure what is causing the bottom dishwasher drawer to collect water, an appliance repairman would have to be called out to further inspect.

TECHNICIAN RECOMMENDATIONS:

I noticed while I was in the kitchen that the Sub-Zero fridge was making a really loud noise. My Sub-Zero fridge was making the same terrible noise and it turned out the fan had to be replaced. There could also be an issue with the air filter. Shoreline appliance(604.941.6199) is the only company in the city that is certified to work on Sub-Zero fridges.
