REASON FOR TODAY'S CALL:
 -tub drain gurgling when toilet flushed.

DESCRIPTION OF WORK PERFORMED:
 When a gurgling sound can be heard in the tub drain when flushing the toilet next to it it usually means that there is some sort of blockage forming in the drain after where the tub and toilet tie in together. I ran the PowerSpin drain snake through the tub drain multiple times and tested by filling the tub 8" and draining. I also flushed the toilet multiple times and filled and drained the lavatory sink.
