REASON FOR TODAY'S CALL:

1. Master toilet - weak flush, loose handle 2. Master sinks (2) - missing plugs 3. Guest sink - no water out of cold tap 4. Kitchen faucet - dripping

DESCRIPTION OF WORK PERFORMED:

---MASTER TOILET: The water level in the tank was set very low not allowing enough water on each flush. I raised the water level in the tank and tested. ---MASTER SINKS: I replaced both lavatory drains with push top style and tested by filling and draining both sinks multiple times. ---GUEST LAVATORY: There was a kink in the integral cold supply line, I straightened it out and during testing noticed a leak coming from the cold braided supply. I replaced this supply line with new. ---KITCHEN FAUCET: The faucet requires replacement cartridges. The homeowner will have to contact Delta's customer service line and have them mail them out under warranty.
