**REASON FOR TODAY'S CALL:**

-the shower diverter in the tub spout isn't working properly and needs to be replaced. I'm not sure if the tub spout is connected by a set screw or if it is a threaded connection.

**DESCRIPTION OF WORK PERFORMED:**

-I replaced the tub spout in the master bathroom with a new Delta pull-down type spout. -I replaced the Moen shower cartridge in the guest bathroom. -I installed a customer supplied shower head in the guest bathroom shower.

**TECHNICIAN RECOMMENDATIONS:**

The tub drain stopper in the master bathroom is functioning normally, it's just the chrome finish that is peeling off.
