REASON FOR TODAY'S CALL:

Garbage disposal has been making a weird noise when used. After putting some carrot chunks in it the seal seems to have come off and has leaked water under the sink. It may need replacing and there may also be a leak that's developed under the second sink.

DESCRIPTION OF WORK PERFORMED:

-I replaced the garburator with a new Badger5 and tested by filling and draining both sinks while running the garburator. -The leak under the second sink was coming from a loose connection on the ptrap. I tightened the ptrap Union and tested again, no leaks present. -The kitchen faucet has a small leak and the shut off valves will have to be repaired. Another visit has been scheduled.
