REASON FOR TODAY'S CALL:  
-leak under bathroom sink

DESCRIPTION OF WORK PERFORMED:

The leak was coming from the braided supply lines that connect the hot & cold handles to the faucet spout. These supply lines are not of a standard type, they came with the faucet. The company that sold these faucets(Cascade) went out of business 6 years ago. I managed to find similar supply lines that fit into the faucet spout and adapted the other ends to fit the hot & cold handles. I also noticed a very small leak coming from the cold supply line that leads from the cold shut off valve to the cold faucet handle, I replaced this braided supply line and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
2		Labour	\$99.00	\$198.00
