REASON FOR TODAY'S CALL:
-garburtaor jammed -ice maker not working

DESCRIPTION OF WORK PERFORMED:
-There was a peice of what appeared to be bone or wood stuck in the garburator grinding chamber. I removed this object and tested by filling and draining the sink while running the garburator. -The shut off valve for the fridge(located under the kitchen sink) was turned off, I turned this valve to the on position but the fridge was still not producing water. I suggest calling an appliance repairman as it seems to be an issue with the fridge itself.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
