REASON FOR TODAY'S CALL:

The temperature on our shower faucet will not exceed a warm temperature. We have a "Gessi Rettangolo" faucet. The main water shut off is in the utility closet by the front door. *Peter will be onsite. Do not call tenant.

DESCRIPTION OF WORK PERFORMED:

---Jan29: I removed the shower cartridge and flushed out quite a bit of debris, reinstalled the cartridge and it was better but still not great. I removed the cartridge and flushed it again but the temperature was no more consistent than after the first flush. The cartridge has buildup inside that cannot be cleaned out, a new cartridge will have to be ordered and installed. ---March8: I purchased and installed a new shower cartridge. Tested and in good working order.
