REASON FOR TODAY'S CALL:
 Garburator is not working, have a feeling it's plugged. Dishwasher also not cleaning like it should, wonder if they're related.

DESCRIPTION OF WORK PERFORMED:
 I unjammed the garburator and removed a metal cap and piece of glass from the grinding chamber. Tested by filling and draining the sink multiple times while running the garburator. I also ran the dishwasher through a short fill and drain cycle and it is draining fine now.
