PHONE 604.736.6478		EMAIL andrea@adventvancouver.com	

REASON FOR TODAY'S CALL:  
Leak under kitchen sink

DESCRIPTION OF WORK PERFORMED:  
-The leak was coming from the connection between the kitchen faucet cold supply line and the shut off valve under the sink. I disconnected the cold supply line and re-connected using Teflon tape. I also detached the hot supply and added Teflon tape to that connection as well in the off chance that this seal were ever to break. -I ran the dishwasher through a short fill & drain cycle and it seems to be working fine.
