REASON FOR TODAY'S CALL:
Toilet tank cracked/broken

DESCRIPTION OF WORK PERFORMED:

-I made a visit to the unit and cleaned up the broken toilet tank. I did not see any obvious signs of misuse. While it is hard to imagine a toilet tank just bursting on its own it is not impossible. If the tank had hairline cracks in it it could have broken in such a way. Unfortunately there is no way for me to say with any certainty exactly how it broke. -The brand of the toilet is Crane. Crane went out of business a long time ago and I could not find a replacement tank. I found a toilet that would fit under the countertop and had a 10" rough in, delivered and installed it, and disposed of the old toilet.
