REASON FOR TODAY'S CALL:
shower handle broken off.

DESCRIPTION OF WORK PERFORMED:
-The stem of the shower cartridge snapped off. I replaced the mixing and pressure balance cartridges and tested. -The toilet lever handle was broken, I replaced the lever handle.

TECHNICIAN RECOMMENDATIONS:
The set screw securing the handle to the cartridge is rusty, I could barely get an Alan wrench to fit. If the set screw fails in the future the handle may have to be glued in place.
