REASON FOR TODAY'S CALL:
 We would like to take out the garburator in this unit. It's not leaking, but it does clog up the drains once in a while. It's not really used frequently, and it seems to have stopped working the past few weeks. So we would like to just remove it and replace the connections with straight plumbing. *There is no buzzer for the unit, so you will have to call/text one of our cellphones to let us know that you have arrived. You can use the number I submitted on the form, 604-782-0615, or this alternate number 604-788-5755. Hope that's ok.

DESCRIPTION OF WORK PERFORMED:
 I removed the garburator, installed a basket strainer in its place, and re-piped the ABS drainage. Tested by filling and draining both sides of the sink multiple times.
