PHONE 778.882.5200		EMAIL verasal@outlook.com	

REASON FOR TODAY'S CALL:
Both bathroom and kitchen faucets are leaking

DESCRIPTION OF WORK PERFORMED:
 ---May25: The shut off valves under the lavatory sink were not working, I repaired these valves by replacing the washers, stems, packing, packing nuts, and handles. I replaced the cartridge(K35A) in the lavatory faucet. ---June7: The shut off valves under the kitchen faucet were not working, I repaired these shut off valves and installed the new Kohler Simplice kitchen faucet and tested.

TECHNICIAN RECOMMENDATIONS:
During testing I noticed a crack in the garburator housing. It is not leaking for now but it will eventually and should be replaced sooner than later.
