REASON FOR TODAY'S CALL:
 my old sink has old tap and old garburator. tap handle is cracked and aerator has fallen out. I want a safe replacement for the tap before i leave on vacation (soon). Not so urgently I would like to replace the garburator. Ultimately i'm redoing my kitchen in 6-12 months, so the tap doesn't have to be fancy, as it will change again then. **Faucet: we can install a new Delta faucet that does not have the spray function and cover the hole with a chrome cover. our price for this would be \$259+GST
 Garburator: we can install a new 1/2HP Waste King 1001 for \$279+GST

DESCRIPTION OF WORK PERFORMED:
 -The Hot & Cold shut off valves for the kitchen faucet were not working. I repaired these valves by replacing the washers, stems, packing, packing nuts, and handles. -I installed a new Delta deck faucet and Waste King garburator. Tested by filling and draining the sink multiple times while running the garburator.
