REASON FOR TODAY'S CALL:
water damage noticed in hardwood flooring.

DESCRIPTION OF WORK PERFORMED:
 -I tested the kitchen sink and faucet by filling and draining both sides of the sink multiple times. There was no sign of leaking but the cabinet is warped from what i gather was a leak in the past(i'm not sure when as it is fully dry) - I removed the kick plate of the dishwasher and noticed a small amount of water on the tile under the machine. I ran the dishwasher through a quick fill and drain cycle and noticed water leaking out of the bottom of the machine. I soaked up the water and informed the tenant not to use the dishwasher. An appliance repairman will have to be called out to have a look.
