PHONE 604.671.4824		EMAIL nohra@vancouverdreamrentals.com	

REASON FOR TODAY'S CALL:

Hi Darren, we have a stuck kitchen sink, and a broken pipe under the sink. Let me know when you can be there and I'll be sure to meet you there. Thanks, Nohra

DESCRIPTION OF WORK PERFORMED:

I tested the kitchen sink by filling both sides of the sink and draining multiple times while running the garburator. The water was running for a good 20 minutes with no sign of leakage anywhere. There was some staining directly under the P-Trap that looked like it was caused by water but the P-Trap Union was tight and showed no signs of leaking thought my testing.

TECHNICIAN RECOMMENDATIONS:

I tested the kitchen sinks under more pressure than they would normally be exposed to and found no leaking. I suggested purchasing a battery powered Water Sensor Alarm and placing it in the cabinet below the sink to help mitigate any future water damage.
