REASON FOR TODAY'S CALL:

Our garburator started leaking :(It's a slow leak. It might just be that the top of the garburator is loose from the sink, but i'm not sure. When only a little amount of water is drained down the sink and the garburator is on there is no leaking. If we fill the sink with water and then drain the sink, it'll leak a lot.

DESCRIPTION OF WORK PERFORMED:

The garburator mounting bracket was loose, I tightened the bracket and tested by filling and draining the sink multiple times while running the garburator.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$109.00	\$109.00
