REASON FOR TODAY'S CALL:
have a running toilet (Kohler)

DESCRIPTION OF WORK PERFORMED:
-I removed the cap of the FillValve and found a small piece of debris stuck the diaphragm. I removed the debris, re-installed the cap, and tested. -The owner inquired how this was done so he could do it in the future if necessary, I showed him step by step. -After testing we noticed a slight hiss had returned. I replaced the mechanical portion of the FillValve and tested again.
