REASON FOR TODAY'S CALL:
 -Kitchen: Small leak under kitchen sink -Bathrooms: Showerheads leaking

DESCRIPTION OF WORK PERFORMED:
 -The garburator was leaking right through the bottom. I replaced the garburator with a new Badger5. During installation the ABS drainage cracked at 2 points, I re-piped the ABS drainage and tested by filling both sides of the sink and draining while running the garburator. -The shower head is leaking where it connects to the spray hose. I could not get this to stop leaking and did not have replacement parts in the van. The tenant said he would just pick up a new spray hose & head and install it himself(no tools will be required as it is a simple install).
