PHONE 604.417.9003		EMAIL colin@colindoig.com	

REASON FOR TODAY'S CALL:
 -garburator not working. -kitchen faucet leaking from handle and side spray mount is cracked. -dishwasher very noisy

DESCRIPTION OF WORK PERFORMED:
 -I was able to get the garburator working again by removing a large screw that was lodged in the grinding chamber but during testing noticed that the garburator had cracks in the housing that water was seeping out of. I replaced the garburator with a new Badger5 and tested. -The kitchen faucet was leaking through the cartridge, I replaced the cartridge and tested. The kitchen faucet side spray holder is cracked but I cannot get a replacement for this. The tenant said she wasn't too concerned about it and it is not creating any sort of leak.

TECHNICIAN RECOMMENDATIONS:
 The dishwasher door makes a loud squealing noise when opening and closing, this will have to be looked at by an appliance repairman.
