The toilet is leaking from the connection of the pipe that fill up the water tank. I have called the office this morning and Darren has called back. We have spoken about this problem. I was told that the earliest time available is Thursday, but there is a possibility of earlier time.

DESCRIPTION OF WORK PERFORMED:

---Sep19: I made a trip to the unit and found the FillValve to be leaking from the bottom, it also had a crack in the housing. I ordered a new FillValve. ---Sep26: I returned with the FillValve and installed. Tested and in good working order.
