REASON FOR TODAY'S CALL:
 -master bathroom tub/shower diverter not functioning normally. -master bathroom tub spout aerator clogged up? -guest bathroom drain stopper lever not functioning.

DESCRIPTION OF WORK PERFORMED:
 ---July29: I made an adjustment to the guest bathroom lavatory drain stopper and tested. -I removed debris from the master bathroom tub spout and took pictures of the leak. I've emailed the pictures to our wholesalers and have inquired about replacement parts. ---Sep12: I reached out to our wholesalers and found out the the faucet was made by a company out of Spain called Tebisa. Unfortunately there are no longer any North American dealers and I could not reach anyone in Soain to inquire about parts. I made another visit to see if it was possible to repair the leak with parts available to me. ---Sep28: I returned with the new Riobel Roman tub filler, installed and tested.
