REASON FOR TODAY'S CALL:

Please contact the Tenant: Barkha Maakker 778-861-5342 barkha@neomailbox.com The work required to be done is: - replace the water shower control faucet and the shower head - investigate water seepage at kitchen faucet and possibly re-caulk the kitchen sink

DESCRIPTION OF WORK PERFORMED:

---Sep29: I replaced the tub spout and re-secured the shower trim handle. ---Sep30: I replaced the garburator & kitchen faucet and tested by filling an draining the sink multiple times. -I siliconed around the lip of the tub as well as the kitchen sink. -I replaced the shower head.

TECHNICIAN RECOMMENDATIONS:

*The kitchen sink is rusting around the edge of the lip. I used enough silicone to cover this but it is possible the rust might start to show through the silicone in the future. If this happens it will just have to be redone.
