**REASON FOR TODAY'S CALL:**

-Guest bathroom lavatory sink leaking onto countertop on occasion. -The toilet in the main bathroom keeps running water into the toilet, and it does not flush properly. It usually needs to be flushed several times for it to fully drain.

**DESCRIPTION OF WORK PERFORMED:**

-I tested the guest bathroom lavatory sink by filling and draining it multiple times while letting it run through the overflow. I did not see any sign of leakage. I believe what is happening is that during use of the faucet some guests are splashing water onto the countertop. -I replaced the master bathroom toilet FillValve, flushvalve gasket, and supply line. I tested the toilet by flushing rolled up balls of toilet paper and it is in good working order.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Toilet Fillvalve, Flushvalve Gasket, Supply Line - Caroma	\$179.00	\$179.00
SUBTOTAL:				\$179.00
GST (5%):				\$8.95
