**REASON FOR TODAY'S CALL:**

In the middle of moving, I made a bonehead decision and dumped some Metamucil down the drain not realizing it turns to a rubber ball when it come in contact with water. I took the trap off to see if I could fix it but seems the plug goes further back (I scooped out what I could and didn't actually put the trap back on to test but I can still feel it plugged with my fingers). Thinking snake might work but don't want to make my issue worse that I already have. Need help.

**DESCRIPTION OF WORK PERFORMED:**

I used the PowerSpin drain snake to clear the kitchen sink drain blockage and tested by filling and draining both sides of the sink multiple times.
