REASON FOR TODAY'S CALL:
leak under sink

DESCRIPTION OF WORK PERFORMED:

-There were a few leaks under the sink - The kitchen faucet was leaking from the handle as well as the spray hose, and the ABS drainage was cracked, allowing water to seep out. The Hot and Cold shut off valves for the kitchen faucet were not working, to repair these I had to first cut an access in the laundry closet wall as the existing valve access panel was next to the laundry machine in a space that was so tight it did not provide adequate room to access the valve handles. I then repaired the Hot & Cold shut off valves under the sink by replacing the washers, stems, packing, packing nuts, and handles. Once through valves were repaired I replaced the kitchen faucet and re-piped the ABS drainage. Tested by filling and draining the sink multiple times while running the garburator.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Symmons Unity Pullout Faucet - Installed	\$319.00	\$319.00
2		Repair 1/2" x 3/8" Angle or Straight Stop - ADD-ON	\$25.00	\$50.00
