REASON FOR TODAY'S CALL:
The kitchen faucet installed Nov20/2015 is leaking.

DESCRIPTION OF WORK PERFORMED:
I was called in May5/2015 because the faucet was leaking. I found at that time that the nut securing the cartridge in place had worked itself loose, I tightened this nut and tested. Since this is the second time the faucet has started to leak Delta sent out a replacement faucet of a different model(469LF). I installed this new faucet and tested.
