REASON FOR TODAY'S CALL:

Clogged shower drain w/ no clue as to source - used Drano foam and Drano snake plus with no improvement. Puddle started forming around drain about a week ago, now leaves shower full of water, takes up to 7 hours to drain completely. Plastic snake tool brought out minimal gunk. After turning on shower, takes about 15 seconds for the puddle to start forming - clog must not be too deep, but wasn't moved by the disposable snake. Please help!

DESCRIPTION OF WORK PERFORMED:

I used the PowerSpin drain snake to clear hair from the shower drain and tested.
