REASON FOR TODAY'S CALL:
 My garburator is not working. When I turn the switch it hums but it does not turn. I've tried manually forcing the paddles and can get them to move, but it still doesn't work. The garburator also drains very very slowly. I don't typically use my garburator so I am not sure how long it hasn't worked for. I suspect it has been a long time. The model is a GE GFC522F.

DESCRIPTION OF WORK PERFORMED:
 -I was able to unjam the garburator and tested by filling and draining the sink while running the garburator.
