REASON FOR TODAY'S CALL:

Both my kitchen faucet and bathroom faucet cannot shut off the water properly. Both faucets I'm having are from the brand called Teknobili, I believe I need to replace the lever cartridge. The kitchen faucet cartridge was replaced this year (you can see the history job #5673). The bathroom faucet didn't have cartridge replacement before. I also brought two faucets just in case that replacing the cartridge is not enough to fix the problem. But ideally we want to keep the originally faucets.

DESCRIPTION OF WORK PERFORMED:

I installed the customer supplied kitchen and lavatory faucets. Tested and in good working order.
