REASON FOR TODAY'S CALL:
Kitchen faucet leaking

DESCRIPTION OF WORK PERFORMED:
-The faucet head was cracked, OEM parts for this faucet are no longer available. I was able to find a Delta spray head that fit, installed and tested. -The tenant mentioned while onsite that the tub was draining slowly. I removed the drain plug lift rod lever but found no hair attached to it. Whatever is causing the blockage is further down and I did not have time to grab the drain snake. Tenant also mentioned that on a previous visit it was determined by a plumber that the drain had a hard obstruction that could not be removed.
