REASON FOR TODAY'S CALL:

I just got a new washing machine. There seems be a leak coming from one of the connections in the wall. The washing machine hose connections are dry but above and to the right there is a slow drip when the water is running.

DESCRIPTION OF WORK PERFORMED:

-I replaced the laundry hoses with braided stainless hoses that have 90 degree elbow joints so the machine can be pushed back far enough to allow the closet door to be closed. -I tightened the packing nuts on the Integral style Hot & Cold shut off valves which seemed to have stopped the leaking but Michelle mentioned that she had discovered a leak coming from the laundry box shut off valve. I will inquire with our wholesalers in regards to the availability of repair parts.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Laundry Supply Hoses - Easy Access	\$159.00	\$159.00
