REASON FOR TODAY'S CALL:

Garbage disposal appears to be leaking from the bottom when water is going down the drain. Not sure if it is the connecting hose or if the unit itself is corroded?? It's an Insinkerator.

DESCRIPTION OF WORK PERFORMED:

-The garburator was leaking from the bottom as well as cracks in the housing. I replaced the garburator with a new Badger5 and tested by filling and draining the sink multiple times while running the garburator. -The second leak that was mentioned and believed to be coming from the dishwasher shut off valve was actually coming from the kitchen faucet hot water supply line directly above it. This supply line is integral to the faucet and cannot be replaced. I suggest replacing the faucet. I have turned the Hot supply to the kitchen faucet off to mitigate the chances of further leaking.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Supply & Install 1/2HP Badger5 Garburator	\$319.00	\$319.00
SUBTOTAL:				\$319.00
GST (5%):				\$15.95
TOTAL:				\$334.95
