REASON FOR TODAY'S CALL:

I've got a another leak in my kitchen faucet. I've shut off the water and nothing is leaking at the moment. This has happened a few times this year, I think the plumber just needs to tighten it again.

DESCRIPTION OF WORK PERFORMED:

The nut securing the cartridge in place worked itself loose again. Since this is not the first time it has happened Delta agreed to provide a replacement faucet under warranty. I replaced the faucet with a new Delta 469LF and tested.
