REASON FOR TODAY'S CALL:

Garburator is not working, when switched on there is only a hum and no movement. Also starting to smell from the sink. Unsure if a repair or replacement needed.

DESCRIPTION OF WORK PERFORMED:

The garburator grinding chamber was jammed and had deteriorated to the point where bits of metal were flaking off. I replaced the garburator with a new Waste King 1001 and tested by filling and and draining the sink multiple times while running the garburator.
