REASON FOR TODAY'S CALL:

Need a new garburator installed. Our condo is 16 years old and the garburator is a bit old. When the garburator gets backed up, the pipes under the sink leaks water.

DESCRIPTION OF WORK PERFORMED:

The leak was coming from the connection between the garburator drain 90 and the ABS drainage slipjoint adaptor. The beveled washer was missing. I installed a beveled washer at this connection and tested by filling and draining both sides of the sink multiple times.
