REASON FOR TODAY'S CALL:
 Kitchen faucet leaking into cupboard beneath. Buz1075

DESCRIPTION OF WORK PERFORMED:
 ---Mar14: I found the faucet to be leaking from two spots. The owner decided to replace the faucet rather than trying to source parts for repair. ---Mar17: I delivered and installed a new Delta deck faucet and tested. The Hot shut off valve under the kitchen sink (connected to the faucet) was not fully shutting the water off. I installed a 3/8" retro stop and removed the handle of the faulty valve as it is now redundant. I also installed a 3/8" brass cap on an old Cold shut off valve that was turned off but had nothing connected to it.

TECHNICIAN RECOMMENDATIONS:
 While onsite I noticed the toilet is leaking between the tank and the bowl when flushed. The tank to bowl gasket will have to be replaced.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Inspection(Mar13)	\$50.00	\$50.00
1		Install Kitchen Faucet - Customer Supplied	\$139.00	\$139.00
