PHONE 604.360.7602		EMAIL markc.home@gmail.com	

REASON FOR TODAY'S CALL:

One toilet has the same problem as when you first visited. Most of the time it never shuts off completely and there is a constant trickle into the cistern, the second toilet just won't flush.

DESCRIPTION OF WORK PERFORMED:

--Master Ensuite: There was debris in the FillValve diaphragm. I flushed this debris out and tested. The toilet is now flushing fine but I highly recommend replacing the supply line*. --Guest Bathroom(2nd floor): The FillValve is clogged up with debris that I could not clean out. It will have to be replaced.

TECHNICIAN RECOMMENDATIONS:

*The supply line to the master bathroom toilet is run in such a way that it is pinched between the wall and toilet, and there is a lot of pressure on the connection to the shut off valve. This should be resolved ASAP as it is at high risk of failure and leaking.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$109.00	\$109.00
			SUBTOTAL:	\$109.00
			GST (5%):	\$5.45
			TOTAL:	\$114.45
