REASON FOR TODAY'S CALL:
Hi Darren My kohler toilet makes a hissing or running sound (water is coming out of fill valve)-this happens about 10 minutes after I flush for a few seconds and continues periodically for about hour until the next flush. Should I stop using the toilet until you this gets fixed?

DESCRIPTION OF WORK PERFORMED:
The flapper was allowing water to trickle out of the tank through bowl which caused the tank to refill periodically. I replaced the flapper and tested.
