REASON FOR TODAY'S CALL:

Kitchen Tap: Dirty/silty water comes out of sink tap occasionally, but not out of the bathroom taps. Tenant says water tastes off/ Leaves scum in cup

DESCRIPTION OF WORK PERFORMED:

The water coming out of the kitchen faucet has air bubbles in it. These air bubbles rise to the top after a minute or so and evaporate. This is totally normal. I did however notice during testing that the faucet spray head was cracked and leaking when in use. I replaced this head with new and tested.
