REASON FOR TODAY'S CALL:

We have a low toilet in one of the bathrooms and my husband is tall. We would love to install a taller toilet. Plus our bathtub stopper has corroded and needs to be replaced.

DESCRIPTION OF WORK PERFORMED:

---Toilet: After removing the old toilet I found the floor flange to be broken on the left side. I first repaired this flange by installing a repair ring then I installed the new toilet and tested. ---Tub Drain: I removed the old tub drain trim and installed new. ---Ensuite Tub/Shower: The tub spout continually dripped even when the handle was turned to the fully off position. I repaired the valve by replacing the seats & springs, SS ball assembly, and cover. Tested and no leaks present.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Install Standard Toilet - Customer Supplied	\$169.00	\$169.00
1		Flange Repair (During Toilet Install)	\$59.00	\$59.00
