REASON FOR TODAY'S CALL:
Under the kitchen sink, there is the leak from second sink with the garburator. (then I have not used it for long time) And the dishwasher drain seems to be connected with that part, it also leaks when the dishwasher was used. I'd like you to remove that garburator or exchange the pipes,if those were broken.

DESCRIPTION OF WORK PERFORMED:
I removed the garburator, installed a basket strainer in its place, and repiped the ABS drainage. Tested by filling and draining the sink multiple times.
